The Einhell hand truck TC-HT 90 is a robust helper for loads up to 90 kg. The sturdy aluminium/steel construction makes the handcart particularly manoeuvrable. The vibration-damping solid rubber tyres are absolutely puncture-proof and resistant against damage from pointed objects. For ergonomic work, the handle of the stacking cart can be extended to a total height of 107 cm. With a width of 35 cm, the foldable cargo support offers plenty of space for heavy goods. Thanks to the foldable design, the pushcart can be folded up to a compact 71 x 39 x 19 cm and stowed away in a space-saving manner – ideal for narrow spaces or for transport in the car.
