The Einhell TC-AV 1618 D ash vacuum cleaner makes light and neat work of clearing up ash. The 18 liter collecting container is designed for prolonged work. The practical carry-handle enables easy transportation. Equipped with a metal-reinforced suction hose (36 mm – length 1 m) and an aluminium suction tube, fine dust and ash dust have no chance of escape. This is ensured by the pleated filter & the additional pre-filter for better filtration. This prevents the main filter becoming quickly clogged. The hose can be reconnected to the air outlet, so that the blowing function can be used instead. The quick-release locks enable the container to be emptied quickly. The power cable can be wound up on the handle for practical storage.
